SUMMARY

I'm a 5th-semester Informatics Engineering student at Politeknik Negeri Jember with a strong interest in web development and UI/UX design. I focus on building clean, responsive, and user-friendly interfaces. I enjoy collaborating with others, solving real design and development challenges, and continuously improving my technical and creative skills through hands-on projects.

EXPERIENCE: CLIENT BASED PROJECT / ACADEMIC PROJECT

Aksara Teknologi Mandiri - IT Intern

Feb 2026 - Now

- Managing and maintain the company's official website platform, including monitoring system performance, resolving bugs/issues, and ensuring smooth user experience across web services.
- Currently contributing to the development of both back-end and front-end systems for a digital product platform focused on online transactions, membership management, and service automation, inspired by modern SaaS-based web applications.
- Collaborated closely with the development and design team to build responsive, user-friendly web interfaces while maintaining consistency between functionality, UI/UX design, and overall branding strategy.

Classification of Broiler and Laying Hen Types and Grading of Laying Hens Using ResNet-18 Integrated with a Web-Based IoT System

Sept - Nov 2025

- Developing an intelligent system to classify the gender and weight grade of layer chicks using fuzzy logic, artificial intelligence (AI), and computer vision (PCV) techniques..
- Responsible for developing the web-based in, AI processing, and computer vision module integration.
- The project aims to support automation in poultry farming through accurate image-based classification, real-time data processing, and smart decision-making.

Web Application - BUKINSI (Buku Induk Siswa) SMPN 2 KURIPAN

August - September 2025

- Developed a manage student data platform for a client, utilizing Laravel for web application.
- Designed and implemented a user-friendly, responsive UI using css and laravel-filament.
- Managed web apps, maintaining high standards of quality and ensuring efficient project delivery.

Mobile and Web Application - RentalKuy! Rent Vehicle in Probolinggo

April - May 2025

- Developed a rent vehicle platform for a client, utilizing Laravel for web and Flutter for mobile applications.
- Designed and implemented a user-friendly, responsive UI using Tailwind CSS and DaisyUI, ensuring a seamless experience across devices.
- Managed both Web Development and UI/UX development, maintaining high standards of quality and ensuring efficient project delivery.

Web Application - OnRuang for Booking Room

February - march 2025

- Developed a booking room platform for a client, utilizing Laravel for web.
- Designed and implemented a user-friendly, responsive UI using DaisyUI, ensuring a seamless experience across devices.

Web Application - LookWork job search platform

October - December 2024

- Developed a job search platform called LookWork that connects job seekers with companies through both a mobile application and a web interface.
- Lead the team in designing an intuitive and responsive user interface, while developing both the front-end and back-end using HTML, CSS and JavaScript.
- Implemented key features including job listings, company and user registration, profile management, job applications, and role-based access for admins, companies, and job seekers to ensure a seamless experience across all platforms.

Desktop Cashier Application - B34dswuv

November 2023 - April 2024

- Developed a cashier application using Java in NetBeans as a programmer, aimed at improving transaction efficiency and inventory management. Designed a user-friendly interface, integrated barcode scanning and receipt printing features, and ensured accurate and reliable system performance through testing.

EDUCATION

Politeknik Negeri Jember

August 2023 - Present

Undergraduate in Informatics Engineering,
GPA: 3,81/4.0 (Semesters 1 - 4)

SKILL & ABILITIES

Programming Languages: Java, PHP, Dart, Javascript, HTML, CSS, TypeScript, Python, C/C++

Framework: Laravel, Flutter and React

Soft Skill: Leadership, Communication, Teamwork, Collaboration, Problem Solving, Critical Thinking

Hard Skill: UI/UX Design, Web and Mobile App Development, Git & Version Control, Image Processing, Intelligent System

CERTIFICATE & EXPERIENCE

Badan Nasional Sertifikasi Profesi (BNSP) - Junior Web Development - 2024

Digital Talent Scholarship - Junior Web Development - 2024

Coding Studio - Fundamental UX Design - 2023

Coding Studio - Fundamental UI Design - 2023

Dicoding - DevOps basics - 2024

Dicoding - Basic Ai -2024
